

Directions: Please meet with your group and fill out this sheet. On the day of your visit show up as early as possible as we must send the groups out on time. Group leaders, please bring this sheet with you on the day of your visit and turn it into 101 Chemistry Annex. After turning in this sheet a staff member will give you your kit with directions to the school.

Date of Meeting:

Location of Meeting:

Date and Time of Classroom Visit:

Questions:

What time and where should our group meet in the Chemistry Annex?

Who is the group driver?

When reacting the food with iodine, which foods contain starches?

How would you explain to a 3rd grader the difference between a simple and complex sugar?

Divide the following tasks so that each member will be a “specialist” in the certain demo:
